

Optometrist State Specific Courses

States have specific requirements to renew optometric licenses. Please see below for information regarding specific states as of April 26, 2021.

Florida: All applicable courses have been submitted to FL CE Broker for approval. Please see the Florida Optometry approvals for updates. The following courses meet the additional requirements for Florida as part of licensure renewal.

#156 Preventions of Medical Errors Within Eyecare (20-843750)

#159 Human Trafficking (20-843758)

Kentucky ETP: The following SECO 2021 courses have been confirmed to count towards Kentucky's ETP hours: #105, #137 and #154

More information about these courses are available on our [Kentucky ETP page](#).

Pennsylvania: The following course has been approved by the Pennsylvania State Board of Optometry to meet additional license requirements.

#161 A Painful Practice

South Carolina: All applicable courses have been submitted to the SC board of optometry through CE Broker for approval. Please see the South Carolina Optometry approvals for updates. The following course is approved to meet the additional pain requirements for South Carolina as part of licensure renewal:

#161 A Painful Practice (20-843284)

Texas: The full SECO 2021 Optometric educational program has been submitted to the Texas Board of Optometry. Approval is pending but will be issued following the board meeting on May 6th. Credit for TX Optometrists will be completed within 30 days of the show.

NOTE: You will not receive credit if you are late to a class.

Do not assume that the courses you registered for will be automatically approved.
